5. Payment Initiation Services:

- 5.1. We provide regulated payment initiation services ("PIS").

- 5.2. With your consent, and at your instruction, we instruct your payment account provider (e.g. your bank or credit card issuer) ("Payment Account Provider") to make a payment or payments from your selected payment account (your "Payment Account") to your chosen recipient.
- 5.3. When you want to make a payment using PIS, we will redirect you to your Payment Account Provider so you can provide them with your login and security credentials ("Credentials") and undergo authentication with them. We will never ask you to share your Credentials with us.
- 5.4. The Payment Account Provider will only act on the instruction to make the payment after you give them your Credentials and successfully authenticate with them.

By selecting your Payment Account Provider and Payment Account, you consent to use the PIS product and instruct PayPoint Digital to initiate a payment of your chosen amount to your chosen recipient, details of which will be clearly displayed on the account selection page.
- 5.6. After you select your Payment Account Provider and Payment Account, PayPoint Digital will redirect you to your Payment Account Provider (either on a web browser, or your mobile banking application) who will ask you for your Credentials, which may include two factor authentication (e.g. a password and biometric credential such as a fingerprint). Neither PayPoint Digital nor the Agent will be able to see or access your Credentials at any time.
- 5.7. Once your Payment Account Provider has confirmed authentication, we will instruct your Payment Account Provider to make a payment in accordance with your instructions (a "Payment Order").
- 5.8. Once you have authorised the payment with your Payment Account Provider, funds will usually leave your Payment Account immediately and, at the latest, within two hours.

- 5.10. If we believe that the conditions set out in these Terms are not satisfied, or if it would be unlawful to initiate a Payment Order, we may refuse to do so.
- 5.11. If we refuse to initiate a Payment Order, we or the Agent will notify you through the App or service you are using, unless the law prevents us from doing so.

6. Account Information Services:

- 6.1. We may provide regulated Account Information Services ("AIS") directly to you or through our Agents.
- 6.2. This will enable you to access and view information relating to your Payment Accounts ("Account Information"), including through our Agents' apps or websites, in a consolidated form; and where relevant, to share that Account Information with those Agents and other third parties.

- ***Services Through an organisation who is our Agent.***

We may provide AIS through an Agent that is registered with the FCA as our agent for the provision of AIS. In those circumstances, we (and not the Agent) are responsible for the provision of AIS, although we may display consolidated Account Information to you through the Agent's app or website.

- ***Sharing data with another business at your instruction.***

We may provide AIS to you directly and, at the same time, and strictly in accordance with your instruction, share your account information with another business who will use your account information to provide a service that you have agreed to use (such as a credit reference service, or an affordability check). In these circumstances, we are responsible for the provision of AIS.

6.3. In order to use our AIS service, you will be directed to a page where you will be able to give your consent to PayPoint Digital, select the Payment Account Provider and Payment Account you want to connect to, and the Account Information you want to access and, if relevant, share with Agents or other third parties.

6.4. When you confirm your consent, you instruct and give your consent to PayPoint Digital to:

- access the Payment Account(s) and Account Information that you have selected, including, where relevant, when you do not actively request such Account Information (i.e. when you are not actively viewing the data or requesting a refresh of the data) and storing the Account Information temporarily before sharing it with any Agents or third parties you have selected. Any such copy of the data is permanently deleted after one (1) hour; and/or
- provide that Account Information to you, and share it with any Agents or third parties you have selected and instructed us to share data with.

6.5. After you select your Payment Account Provider and Payment Account, PayPoint Digital will redirect you to your Payment Account Provider (either on a web browser, or your banking mobile application) who will ask you for your Credentials, which may include two factor authentication (e.g. a password and biometric credential such as a fingerprint) for authentication.

6.6. Neither PayPoint Digital nor the Agent will be able to see or access your Credentials at any time. Once your Payment Account Provider has confirmed authentication, we will access your Account Information, provide it to you, and share it in accordance with your instructions to us.

6.7. The Account Information retrieved and shared may include your personal account details (such as name, address, email, phone number), transaction history, transaction amounts and descriptions, account name and number, currency, account balance, any overdraft balance, payment due dates and other information about your transactions. This will depend on the services being provided by the Agent through which you access our AIS service.

- 6.8. We will provide you with the Account Information retrieved in this way ourselves (where we provide AIS directly) or through our Agents' apps or websites (where we provide AIS through an Agent that acts as our agent).
- 6.9. At your instruction, and with your explicit consent, we will also provide that Account Information to Agents or other third parties in accordance with the provisions above.
- 6.10. You will need to renew PayPoint Digital's access to your Payment Account(s) by authenticating with the relevant Payment Account Provider at least every 90 days, and every time you wish to access and/or share Account Information other than your account balance or transaction data relating to transactions occurring in the last 90 days.
- 6.11. When you have made an AIS request, we will display the details of the account selected by you. If you want information relating to another account held by you, please make a new request.
- 6.12. If we consider that the conditions set out in these Terms are not satisfied, or if it would be unlawful to provide you with AIS, we may refuse to do so.
- 6.13. If this is the case, we or the Agent will notify you through the App or website, unless the law prevents us from doing so.
- 6.14. We are responsible for any act of omission by an Agent under these Terms as if the act or omission had been made by us.

- 7.2. For the purposes of this Verification Service, the terms set out in "Account Information Services" above will apply in addition to those in this "PayPoint Digital Verification Services" section.
- 7.3. In order to use our Verification service, the consent that you provide as part of the AIS Service will permit; (i) the sharing of the relevant Account Information with PayPoint Digital and the Agent; and (ii) PayPoint Digital to use that data for the purposes of verifying your identity against a separate set of data provided by the Agent.
- 7.4. Once PayPoint Digital has cross-checked the AIS retrieved data against the data provided by the Agent, we will return a Verification Outcome to the Agent which will state whether the two data sets match, do not match or that insufficient information has been provided.

- 8.4. After you select your Payment Account Provider and Payment Account, we will redirect you to your Payment Account Provider for you to provide them with your login and security credentials and undergo authentication with them, which may include two factor authentication (e.g. a password and biometric credential such as a fingerprint).
- 8.5. Neither PayPoint Digital nor the Agent will be able to see or access your Credentials at any time.
- 8.6. If we believe that the conditions set out in these Terms are not satisfied, or if it would be unlawful to initiate a Payment Order, we may refuse to do so.
- 8.7. If we refuse to initiate a Payment Order, we or the Agent will notify you through the App or service you are using, unless the law prevents us from doing so.
- 8.8. Once your Payment Account Provider has confirmed authentication, we will instruct your Payment Account Provider to make a payment to PayPoint Digital in accordance with your instructions.
- 8.9. Once your funds have been received, we or the Agent will confirm the successful initiation of a Payment Order.
- 8.10. No further payments will be initiated by PayPoint Digital to the Agent (or executed by your Payment Account Provider to the Agent), unless you repeat the steps to make a further purchase.
